

KINGDOM OF MOROCCO

Morocco Issue Paper # 10

THE RECLASSIFICATION OF MOBILE KITCHENS INTO THE CATEGORY OF MAJOR EQUIPMENT, AND WHERE APPLICABLE, THE REASSESSMENT OF REIMBURSEMENT AMOUNTS FOR RELATED SERVICES (ACCOMMODATION, CATERING, AND CAMPING)

1. ISSUE PAPER THEME

Self-Sustainment

2. SUMMARY / BACKGROUND / PREVIOUS HISTORY

To ensure the collective catering of the blue helmet soldiers, the Kingdom of Morocco deploys large-capacity mobile kitchens at the level of the companies (POB), offering advantages in terms of mobility, rapid deployment and compliance with hygiene standards. However, the reimbursement of this equipment under the Self-Sustainment, particularly in the catering category, remains insufficient compared to the high cost borne by the Contributing Country for acquiring such equipment.

Previous History:

Given the deployment conditions of the contingents, who are called to serve in remote locations, collective catering, which encourages communication and interaction among soldiers, particularly during group meals, is becoming increasingly essential due to its highly positive impact on the morale and well-being of the troops. Achieving this objective requires the use of suitable equipment with high meal preparation capacity, such as mobile kitchens.

3. DETAILED PROPOSAL
