

PROVISIONAL AGENDA (ALLOCATION OF AGENDA ITEMS)

WORKING GROUP ON CONTINGENT-OWNED EQUIPMENT

19 – 30 January 2026

1. MAJOR EQUIPMENT

1.1 Equipment Review

- 1.1.1 **MRAP:** Secretariat issue paper #1 - Mandated Study: Mine Resistant Ambush Protected (MRAP) Vehicles. The proposal recommends merging the MRAP with APC category and amending the APC definition to include MRAPs
- 1.1.2 **MRAP:** Pakistan issue paper #5: Recategorization for Mine-Resistant Ambush-Protected (MRAP) vehicles
- 1.1.3 **C-UAS:** Secretariat issue paper #2 – Mandated Study: Mandated Study - Counter unmanned aerial system (C-UAS) equipment. The IP proposes a system that is a comprehensive, multi-component solution designed to detect, track, identify, and mitigate drone threats
- 1.1.4 **C-UAS:** China issue paper #1: Counter UAS Equipment
- 1.1.5 **C-UAS:** France issue paper #1: Counter drone/UAS systems
- 1.1.6 Secretariat issue paper #3: Regularization of equipment currently deployed in field missions as special cases, reclassifying them as major equipment in the COE Manual
- 1.1.7 Secretariat issue paper #4: Improve the procedure for calculating and applying special case equipment rates
- 1.1.8 India issue paper #3: Recognition and reimbursement for long term use of improvised mission critical equipment and infrastructure by TCCs
- 1.1.9 Indonesia issue paper #3: Technical update to the COE Manual renaming the industrial tractor light
- 1.1.10 Malaysia issue paper #1: Inclusion of 3 KVA Generator as major equipment
- 1.1.11 Morocco issue paper #7: Integration of mobile bakeries into the equipment for Temporary Operational Bases (TOBs)
- 1.1.12 Morocco issue paper #10: Reclassification of mobile kitchens as major

equipment, and reassessment of reimbursement amounts for related services

- 1.1.13 Nepal issue paper #4: Reclassification and reimbursement revision for High Mobility Light Tactical Vehicles (HMLTV)
- 1.1.14 Republic of Korea issue paper #1: Intelligent Guard and Surveillance
- 1.1.15 Togo issue paper #1: Increase GFMV and reimbursement rate for APC (wheeled) Class I armed and rest of the COE

1.2 Cease of operations

- 1.2.1 Secretariat issue paper #5: Reimbursement of major equipment and self-sustainment after COO based on its serviceability status
- 1.2.2 Secretariat issue paper #6: Clarification on applicability of the 90-day policy after COO on the repatriation and reimbursement
- 1.2.3 Secretariat issue paper #7: Propose applicability of 50% reimbursement for ME & SS, when a unit is non-operable
- 1.2.4 Secretariat issue paper #8: Propose applicability of the 90-days policy after COO on the reimbursement for personnel
- 1.2.5 USA issue paper #1: Define “cessation of operations”
- 1.2.6 USA issue paper #2: Non-reimbursement for non-operational units

1.3 Hostile Action/Force Abandonment

- 1.3.1 Secretariat issue paper #9: Clarification on provisions for reimbursement under Hostile Action/Forced Abandonment when loss or damage is within or outside the mission area
- 1.3.2 Secretariat issue paper #10: Clarify different circumstances in which forced abandonment policy may be applied, including abandonment due to extreme logistical constraints
- 1.3.3 Secretariat issue paper #11: Propose applicability on COE that is beyond economic repair or long term unserviceable
- 1.3.4 Indonesia issue paper #1: Review to add new protocol to the hostile action factor
- 1.3.5 Rwanda issue paper #1: Claim for major equipment lost or damaged due to hostile actions, regardless of cost
- 1.3.6 India issue paper #1: Damage reimbursement criteria on all damages by UN - operational efficiency based in lieu of 10% limit factor

1.4 Operational efficiency

- 1.4.1 Secretariat issue paper #12 - Mandated Study: Linking Usage with Reimbursement for Major Equipment
- 1.4.2 Secretariat issue paper #13: Field Remote Infrastructure Monitoring (FRIM) - Proposes the installation of smart energy meters on generators
- 1.4.3 Secretariat issue paper #14 - Mandated Study: Installation of passive vehicle

fleet management devices into COE vehicles

- 1.4.4 Secretariat issue paper #15 - Mandated Study: Operational engagement premium, for major equipment operating at an intensified operational tempo

1.5 Generators/Renewable Energy Systems

- 1.5.1 Secretariat issue paper #16: Reimbursement for generators when electrical power is provided or arranged from an alternate source
- 1.5.2 USA issue paper #3: Power source management
- 1.5.3 Secretariat issue paper #17: Expand the reimbursement coverage rates to include modalities for medium and high penetration renewable energy systems
- 1.5.4 Secretariat issue paper #18: Define serviceability criteria for COE renewable energy systems to ensure that the projected electrical output and diesel fuel savings are realized in the field

1.6 Disposal of COE

- 1.6.1 Secretariat issue paper #19: Eligibility for repatriation for the long term unserviceable COE
- 1.6.2 USA issue paper #6: Repatriation of unserviceable COE
- 1.6.3 Secretariat issue paper #20: Transfer of revenue generated from the disposal of COE to the T/PCC
- 1.6.4 Secretariat issue paper #21: Clarification on donation/disposal of sensitive and/or military value COE
- 1.6.5 Sri Lanka issue paper #2: Disposal of equipment during hasty mission withdrawal

1.7 Deployment/Repatriation/Rotation

- 1.7.1 Secretariat issue paper #22: Standardize container quantities for initial deployment and repatriation
- 1.7.2 Bangladesh issue paper #1: Delay in receiving clearance from the host nation are resulting in unfair reimbursement reductions for major equipment, self-sustainment items, consumables and spare parts
- 1.7.3 Bangladesh issue paper #3: Initial deployment (not for induction being undertaken under letter of assist) of the equipment and exceptional delays encountered in the movement of COE beyond the control of the troop/police contributor
- 1.7.4 Secretariat issue paper #23: Removal of UN letter markings from COE prior to repatriation
- 1.7.5 Egypt issue paper #1: Repatriation of COE at UN expense in case of MOU amendment
- 1.7.6 El Salvador issue paper #1: Problems in the procedures for handover of equipment during repatriation process (Case: Mali-Timbuktu)
- 1.7.7 Bangladesh issue paper #2: Policy clarification on the requirement of acceptable

shelf life for deploying major equipment and inclusion of refurbishment policy in COE manual

- 1.7.8 India issue paper #2: Loss of reimbursement to the member states due to delay in induction of COE
- 1.7.9 Nepal issue paper #5: Reimbursement for stranded COE beyond the control of TCC
- 1.7.10 **Rotation:** Secretariat issue paper #24: Rotation of COE at UN expense - Expand the scope to all major equipment categories
- 1.7.11 **Rotation:** Indonesia issue paper #2: Rotation of Equipment at the United Nations' expense
- 1.7.12 **Rotation:** Morocco issue paper #1: Reducing to 5 instead of 7 years, the duration necessary for the replacement of major equipment due to non-operability in the mission area
- 1.7.13 **Rotation:** Morocco issue paper #3: Coverage by the United Nations of the costs associated with the replacement of all categories of major equipment deployed in the field for more than seven years

1.8 Ammunition Management

- 1.8.1 Secretariat issue paper #25 - Mandated Study: Propose standard rates of reimbursement for ammunition
- 1.8.2 Pakistan issue paper #1: Standardize the reimbursement rates for common ammunition
- 1.8.3 Secretariat issue paper #26 - Mandated Study: Revise the minimum shelf-life requirement at the time of deployment for ammunition with a manufacturer-specified shelf life of five years or less
- 1.8.4 Secretariat issue paper #27: Rotation of ammunition prior to expiry when in-mission disposal is restricted
- 1.8.5 USA issue paper #7: Rotation of expired ammunition
- 1.8.6 Burkina Faso issue paper #2: Management of expired ammunition
- 1.8.7 Rwanda issue paper #2: Repatriation of expired ammunition and explosives at UN expense
- 1.8.8 Secretariat issue paper #28: EOD/IEDD - Updates the language and references for explosive ordnance disposal (EOD) equipment to align with relevant UN documents
- 1.8.9 Burkina Faso issue paper #1: Introduce centralized digitization of ammunition management
- 1.8.10 Burkina Faso issue paper #3: White phosphorus

1.9 Riot control equipment

- 1.9.1 Secretariat issue paper #29 - Mandated Study: Findings on study on reimbursement for riot control equipment for FPU's
- 1.9.2 Egypt issue paper #2: Reimbursement as major equipment of riot control

equipment of Police units

- 1.9.3 USA issue paper #4: Remove riot control equipment/gear as a category of major equipment for reimbursement to reflect that this equipment is already reimbursed via the standard T/PCC reimbursement rate

1.10 National Support Elements

- 1.10.1 Secretariat issue paper #30: Define and regulate National Support Element (NSE) personnel and equipment to ensure common understanding among stakeholders on the financial and legal framework

1.11 Mission Factors

- 1.11.1 Secretariat issue paper #31: Streamline administrative processes on the lead and approving authority within UN
- 1.11.2 Bangladesh issue paper #4: Redefining extreme environmental conditions factor

1.12 RDL/PCRS

- 1.12.1 Morocco issue paper #2: Reimbursement by the UN of 25% of major equipment maintenance costs for units at the RDL in the event of delay in deployment
- 1.12.2 Nepal issue paper #3: Increase the maintenance reimbursement structure for major equipment under the Rapid Deployment Level (RDL) from 25% to 50%

2. MEDICAL

2.1 Medical Miscellaneous

- 2.1.1 Secretariat issue paper #32: Introduction of telemedicine in the UN healthcare system
- 2.1.2 Brazil issue paper #2: Inclusion of telemedicine in military operations
- 2.1.3 Secretariat issue paper #33: Implementation of the UN electronic medical records system (EarthMed) in T/PCC provided medical facilities
- 2.1.4 Brazil issue paper #3: Definition and standardization of Psychological First Response Kit in the field
- 2.1.5 Morocco issue paper #4: Amendment to the French version of the COE Manual regarding the technical designation of ultrasound machine to align with the English text

2.2 Medical Equipment/Module

- 2.2.1 Secretariat issue paper #35 - Mandated Study: Modular reimbursement system for Level 2 and Level 3 Hospitals
- 2.2.2 Bangladesh issue paper #5: Proposal for the inclusion of Portable X-ray machine in Level 1 Medical Facility

- 2.2.3 Bangladesh issue paper #8: Proposal for the inclusion of hematology analyzers in Level 1 Medical Facilities
- 2.2.4 Brazil issue paper #1: Inclusion of personal protective equipment (PPE) for operation in biological risk environments
- 2.2.5 Brazil issue paper #4: Upgrade conventional portable ultrasound system to wireless Portable Ultrasound System
- 2.2.6 Morocco issue paper #8: Inclusion of an oxygen generator with high-capacity tank (minimum 200 L) in the Level 2 Medical Unit's assets
- 2.2.7 Brazil issue paper #5: Chemical, biological, radiological and nuclear (CBRN) decontamination trailers
- 2.2.8 France issue paper #2: Preventive biomedical maintenance

2.3 Personnel and staff

- 2.3.1 Pakistan issue paper #3: Inclusion of psychiatrist/mental health nurse at Level 1, 2, and 3 hospitals
- 2.3.2 Sri Lanka issue paper #1: Additional deployment of medical specialists in mission areas

2.4 Medical Self-Sustainment

- 2.4.1 Secretariat issue paper #36: Long duration patrol kits to improve responsiveness and uphold dignity of female peacekeepers through a new 'Field Hygiene' self-sustainment subcategory
- 2.4.2 Canada, Australia, Bangladesh issue paper #1: Provision of urinary diversion devices for uniformed women personnel as soldier kit
- 2.4.3 India issue paper #4: Reimbursement for life-saving medical consumables expended during emergencies
- 2.4.4 Secretariat issue paper #34: Revise the contents and packaging of the Buddy First Aid Kit (BFAK) and requirement of the Field Medical Assistant Kit (FMAK)

3. SELF-SUSTAINMENT

3.1 Welfare

- 3.1.1 Secretariat issue paper #37: Provision of data connectivity below the Unit HQ level by UN
- 3.1.2 Secretariat issue paper #38: Gym-in-a-Box - Introduce a separate self-sustainment subcategory "Fitness"

3.2 Accommodation

- 3.2.1 Secretariat issue paper #39: Measures to enhance participation of women uniformed peacekeepers
- 3.2.2 Morocco issue paper #5: Gender approach - encouragement of female

participation by increasing the baggage allowance and establishment of dedicated accommodation

3.3 Miscellaneous

- 3.3.1 Secretariat issue paper #40: Update the language in the model MOU for the nomination of environmental focal points
- 3.3.2 Secretariat issue paper #41: Prohibition of deployment of minor equipment and consumables containing substances banned under international conventions, protocols and treaties
- 3.3.3 Secretariat issue paper #42: Minimize the use of single-use plastic material in packaging of COE equipment
- 3.3.4 Bangladesh issue paper #7: Compensation concerning the loss/destruction of self-sustainment equipment where explicit order (force abandonment/complying with security measures) is issued
- 3.3.5 India issue paper #5: Reimbursement to TCCs for non-MoU communication equipment used during outages in mission areas
- 3.3.6 Morocco issue paper #6: Provision by UN of flammable material as lubricants, fuels and maintenance gases
- 3.3.7 Nepal issue paper #2: Reimbursement for major components of self-sustainment under the Peacekeeping Capability Readiness System (PCRS)
- 3.3.8 Pakistan issue paper #4: Introduction of dangerous goods consumable category
- 3.3.9 Rwanda issue paper #3: Provision of observation and positioning equipment scale in the COE Manual

3.4 Tentage

- 3.4.1 Secretariat issue paper #43 - Mandated Study: The study on repatriation versus reimbursement of self-sustainment Tentage once redundant
- 3.4.2 Pakistan issue paper #6: Review of reimbursement criteria for Tentage versus repatriation

3.5 Temporary Operating Bases

- 3.5.1 Secretariat issue paper #44 - Mandated Study: Incorporating the reference to the newly developed guidelines for managing temporary operating bases (TOBs)
- 3.5.2 USA issue paper #5: Removal of TOB premium

3.6 Intra-Mission Transportation

- 3.6.1 Secretariat issue paper #46: Clarification on the responsibilities of intra-mission movement of COE from disembarkation point to T/PCC camp and back to embarkation point during deployment and repatriation respectively

3.7 Claims

- 3.7.1 Secretariat issue paper #47: Establish a time limit for submission of reimbursement claims for: LOA, Initial Provisioning, Loss or Damage in Transit, Hostile Action or Force Abandonment and Repainting Equipment

3.8 Enhancing Accountability

- 3.8.1 Secretariat issue paper #49: Rear parties - Clarify the responsibilities of rear parties
- 3.8.2 Secretariat issue paper #50: Strengthening the commitment of T/PCCs to meet new capability requirements (SUR)

3.9 Internet

- 3.9.1 Malaysia issue paper #2: Internet wifi - increase the reimbursement rate from USD 6 to USD 12
- 3.9.2 Morocco issue paper #9: Reassessment of Internet rate from \$6 to \$25
- 3.9.3 Nepal issue paper #6: Increase the reimbursement for the internet services from \$6 to \$10
- 3.9.4 Pakistan issue paper #2: Increase the internet reimbursement rate from \$6 to \$15

3.10 Technical Edits

- 3.10.1 Secretariat issue paper #45: Providing authority to the Secretariat to update the COE Manual to reflect the recommendations of the Quadrennial Cost Survey as endorsed by the General Assembly
- 3.10.2 Secretariat issue paper #48: Update the COE Manual to correct technical errors and anomalies

4. OTHER ISSUE PAPERS

4.1 Other

- 4.1.1 Bangladesh issue paper #5: Inclusion of a Landing Craft Utility (LCU) in the MOU of Bangladesh Force Marine Unit as special case (UNMISS)
- 4.1.2 Italy issue paper #1: Catering - food stuff delivery
- 4.1.3 Nepal issue paper #1: Reimbursement for loss or damage to personnel baggage
