SUMMARY OF PROPOSAL

As per COE manual chapter 4 of para 8, UN is responsible for deployment and repatriation of COE major and minor equipment including spare parts and consumable of TCC. In previous years, containers (other than the included in MoU) were provided by UN arrangement. But recently for the initial deployment, TCC had to buy additional containers, as UN differed from explanation of clause chapter 4, para 10. To eliminate this misunderstanding on explanation of said clause (chapter 4 of para 10), it is required to add the requirement of containers precisely on the existing related clause of manual.

PROPOSED TEXT FOR 2023 COE MANUAL

Amend the Chapter 4, para 10:

On deployment and redeployment, the United Nations will provide packing and crating materials, *and additional containers required for transportation other than those agreed in the MOU*, or reimburse the cost of such materials, exclusive of labour costs, as a preventive measure against loss of or damage to equipment.
