## SUMMARY OF PROPOSAL

The threat to UN units from drones is increasing, and Denmark therefore proposed a study for Counter Drone Equipment against Class I unmanned aircraft systems

## PROPOSED TEXT FOR 2023 COE REPORT

The working group requested the Secretariat to conduct a study on Counter Drone Technology to be presented for the next COE Working Group in 2026. The study should include sensors, effectors, and the Command and Control (C2) system. The Member States requested the study takes into consideration the UN Peacekeeping intelligence policy and the UN Intelligence, Surveillance and Reconnaissance (ISR) manual.
