

KINGDOM OF MOROCCO

(TECHNICAL UPDATE) CLAIM STATUS REPORTING

1. ISSUE PAPER THEME: Other

2. SUMMARY

The COE manual published in 2020 is considered as a reference for all police and troop contributing countries and for other stakeholders in peace operations, therefore its accuracy and cohesion in terms of directives and provisions should be in line with other connected documents dealing with the same topics especially translated documents into French language.

3. BACKGROUND

According to chapter 3, title d, page (27/271) paragraph (c) the claim status reporting is provided upon request established by member states but not automatically once a month as mentioned in the French version of the COE Manual (2020):

(c): Claim status reporting is provided by the United Nations to the troop/police contributor **upon request**. The report shows monthly payments and/or debt, as well as the balance at the time of reporting.

4. DETAILED PROPOSAL

For more cohesion in the provisions of the COE Manual 2020, it is proposed that its translation into another UN official language must be done scrupulously and with careful attention to every single detail in order to avoid misunderstanding as well as misinterpretation of the original English version.
