TECHNICAL EDITS – CLAIM STATUS REPORTING

Self-Sustainment

LIST OF ISSUE PAPERS

Morocco IP #1 - (Technical update) Claim status reporting

SUMMARY OF PROPOSAL

The COE manual published in 2020 is considered as a reference for all police and troop contributing countries and for other stakeholders in peace operations, therefore its accuracy and cohesion in terms of directives and provisions should be in line with other connected documents dealing with the same topics especially translated documents into other language.

According to chapter 3, title d, page (27/271) paragraph (c) the claim status reporting is provided upon request established by member states but not automatically once a month as mentioned in the French version of the COE Manual (2020) (c):

-English version: Claim status reporting: Claim status reporting is provided by the United Nations to the troop/police contributor **upon request**. The report shows monthly payments and/or debt, as well as the balance at the time of reporting.

-French version : Rapport sur l'état des demandes de remboursement : L'ONU remet **chaque mois** au pays qui fournit des contingents un rapport sur l'état de ses demandes de remboursement, dans lequel figurent les sommes réglées au cours du mois, les sommes dues et le solde à la date d'établissement du rapport.

PROPOSED TEXT FOR 2023 COE MANUAL

-English version: (c) Claim status reporting: **COE** Claim status reporting should be provided by the United Nations to the troop/police contributor **on a quarterly basis**. The report shows **quarterly** ~~monthly~~ payments and/or debt, as well as the balance at the time of reporting.

☐ **Still under discussion**
☒ **Agreed by the sub-working group on** *20/01/2023*
☒ **AGREED BY WORKING GROUP ON** *23/01/2023*
